Solvent Free Parts Cleaning Equipment

# Welcome To Service Line, Inc.

Service Line, Inc. provides water based parts cleaning systems to a network of distributors throughout the United States and Internationally. The Company operates from a commercial building located in a high technology industrial park in Reedsburg, Wisconsin

## The History Of Service Line, Inc.

Founded in 1989 by David Barney. Mr. Barney graduated from the Automotive Mechanics Trade School in Duluth, Minnesota and began his career as an automotive line mechanic at a Chevrolet dealership. An innovative and highly motivated self-starter, Mr. Barney entered the automotive parts distribution business in the mid-1980s. Service Line started out as an independent automotive parts and accessories distributor selling parts, tools, and accessories to automotive and truck repair shops. One of the Company's product lines was parts washers, however David Barney was not satisfied with the lines of parts washers on the market.

As a result of his daily interaction with repair shops over a number of years, Mr. Barney realized that his clients and the automotive repair industry as a whole were looking for a viable replacement to solvent-based parts washers. Researching available aqueous based parts washers, Mr. Barney found a line that seemed to be exactly what his customers were looking for. He purchased 100 units, modified them somewhat, and sold them with a private label. All 100 units were sold within a 140-day time frame. The units broke down, however, within months of delivery to customers. The original manufacturer of the parts washers would not stand behind the product, again leaving Mr. Barney without a quality product to meet customer demand and expectation.

David Barney subsequently set out to design and produce his own line of water-based products. In 1998, he came up with the first Renegade parts washer, incorporated Service Line, and began to market his products. The Renegade line of washers, biodegradable cleaning solutions, and accessories is the culmination of a number of years spent listening to customer feedback and incorporating design changes, making Renegade the highest quality water-based parts washer available. Today Renegade boasts a superior line of eight parts washers, numerous cleaning products, and a full-line of accessories and replacement parts.

A contract to supply Quinn Cat, a Caterpillar heavy equipment distributor near Fresno, California, is a powerful example of the Renegade product lines appeal to repair industry customers. Faced with legislation that outlawed the use of solvent based washers, Quinn Cat contacted 15 different aqueous-based parts manufacturers and requested a demo of the manufacturers units in their maintenance departments for a period of ten months. At the end of the ten months, the manufacturer with the best performing washer would be awarded a contract for 62 machines. At the close of the ten-month period, Renegade - with a unit that was priced at \$2,500 (two times higher than the closest priced competitor) - won the contract based on superior performance and user appeal.

# Parts Washer Options

## Flow-Thru Detail Brush

# 0409

For those hard to reach areas, and those parts that need just a little brush to remove stubborn deposits.

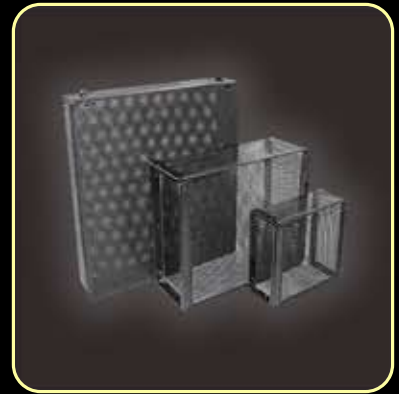

Flow-thru detail brush can be installed on existing systems too!

## Parts Basket

(L) # 1034, (S) #1035

Keeps your small parts together for optimum cleaning, and prevents small parts from falling down into the base of the cleaning system.

Galvanized steel construction.

## Flow-Thru Scrub Brush

# 0410

For those hard to reach areas, and those parts that need extra scrubbing to remove those stubborn deposits.

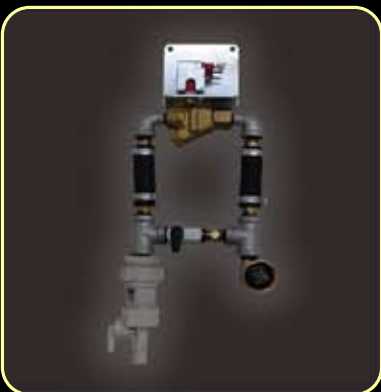

Flow-thru scrub brush can be installed on existing systems too!

## Splash Shield

# 1690

Completely eliminates backsplash and spills on any manual parts cleaning system.

Fits large and small sinktops of our manual cleaning systems.

## Auto-Fill

# OPT-150

Automatically adds water and introduces the proper amount of detergent when the unit runs low, or during solution change outs.

Use only with liquid detergent.

## Work Light

# 1615

Optional work light for Renegade manual washers.

Ideal for low light work areas, ensuring visibility when cleaning your parts.

# Parts Washer Detergent

## Jetwash Liquid Detergent

**55 Gal Concentrate**  
**# 6043**

Compatible with all jet wash automatic parts washers. Safe for all metals, low foaming low residue. Safe for electric motors.

Does not turn aluminum black. Will not clog pump intakes like powder detergents.

Contains rust inhibitor and defoamer

## Manual Washer Detergent

**55 Gal Concentrate**  
**# 6063**

Compatible with all manual water based parts washers.

Fast Drying,  
low residue, skin conditioner,  
and rust inhibitor.

Safe for all metals.  
Solvent free

## Jetwash Liquid Detergent

**5 Gal Concentrate**  
**# 6042**

Compatible with all jet wash automatic parts washers. Safe for all metals, low foaming low residue. Safe for electric motors.

Does not turn aluminum black. Will not clog pump intakes like powder detergents.

Contains rust inhibitor and defoamer

## Manual Washer Detergent

**55 Gal Concentrate Pre-Mix**  
**# 6062**

Compatible with all manual water based parts washers.

Fast Drying,  
low residue, skin conditioner,  
and rust inhibitor.

Safe for all metals.  
Solvent free

## Jetwash Powder Detergent

**40 lb Concentrate**  
**# 6041**

Compatible with all jet wash automatic parts washers. Safe for all metals, low foaming low residue. Safe for electric motors.

Does not turn aluminum black. Will not clog pump intakes like powder detergents.

Contains rust inhibitor and defoamer

## Manual Washer Detergent

**5 Gal Concentrate**  
**# 6060**

Compatible with all manual water based parts washers.

Fast Drying,  
low residue, skin conditioner,  
and rust inhibitor.

Safe for all metals.  
Solvent free

# Water Treatment Chemicals

## Defoamer

**55 Gal  
# 6070**

Reduces excess foam in manual parts washers, and automatic parts washers.

Compatible with all Renegade detergents.

Usage depends upon your specific water hardness.

## Rust Inhibitor

**5 Gal  
# 6006**

Great for hard water applications.  
Extra rust protection for parts being cleaned and left on the shelf.

Compatible with all Renegade detergents.

For use in manual parts washers, and automatic parts washers

## Defoamer

**1 Gal  
# 6002**

Reduces excess foam in manual parts washers, and automatic parts washers.

Compatible with all Renegade detergents.

Usage depends upon your specific water hardness.

## Rust Inhibitor

**1 Gal  
# 6005**

Great for hard water applications.  
Extra rust protection for parts being cleaned and left on the shelf.

Compatible with all Renegade detergents.

For use in manual parts washers, and automatic parts washers

## Defoamer

**32oz  
# 6003**

Reduces excess foam in manual parts washers, and automatic parts washers.

Compatible with all Renegade detergents.

Usage depends upon your specific water hardness.

## Rust Inhibitor

**32oz  
# 6004**

Great for hard water applications.  
Extra rust protection for parts being cleaned and left on the shelf.

Compatible with all Renegade detergents.

For use in manual parts washers, and automatic parts washers

# Degreasers and Cleaners

## Jolt Degreaser

**5 Gal**  
**# 6067**

Excellent pre-soak for extra tough grease and baked on soot and varnish.

Compatible with all Renegade parts washer detergents.

For use in manual parts washers, and automatic parts washers.

## Jolt Degreaser

**Case (12) 24oz**  
**# 6068**

Excellent pre-soak for extra tough grease and baked on soot and varnish.

Compatible with all Renegade parts washer detergents.

For use in manual parts washers, and automatic parts washers.

## Jolt Degreaser

**1 Gal**  
**# 6071**

Excellent pre-soak for extra tough grease and baked on soot and varnish.

Compatible with all Renegade parts washer detergents.

For use in manual parts washers, and automatic parts washers.

## Hand Cleaner

**64oz**  
**# 6055**

Solvent free hand cleaner.

Super concentrated hand wash and skin conditioner.

Gets the dirt and grease out.

Low odor.

## Jolt Degreaser

**24oz**  
**# 6040**

Excellent pre-soak for extra tough grease and baked on soot and varnish.

Compatible with all Renegade parts washer detergents.

For use in manual parts washers, and automatic parts washers.

## Floor Cleaner

**50 lb**  
**# 6030**

Bio-degradable floor cleaner for heavy duty cleaning.

Concentrated powder floor cleaner removes oil stains, grime, from high traffic areas.

# Accessories

## Sink Insert Towels

**Case of 24  
# 1103**

Parts Washer Oil towel for use in our Oil Towel Tray. General purpose 1 ply (14x17) cut to fit.

## Detail Brush Set

**6 Piece Set  
# 0401**

Work great in the parts washer to clean threads on fasteners and removing debris from tight spaces.

## Sink Insert Replacement Foam

**Single Sheets  
# 1060**

Parts Washer Sink Insert Tray Replacement Foam for use in manual parts washer sink insert tray. Pre cut to fit inside our sink insert sediment tray.

Helps reduce the amount of oil and small debris that enters the parts washer cleaning solution.

## Drain Filter Bags

**50 Micron  
Long - # 0804, Short - # 0803**

Reusable, washable nylon filter bags for our manual parts washers that fit into the sink drain to trap solid particulates and extend cleaning solution life

## Cartridge Filters

**12 pack  
# 0802**

Cartridge Filter Replacement for our Single and the Triple Cartridge Filtration System.

Cartridge Filter Replacement is available to 4 microns.

## Triple Filter

**Superior Protection  
# 0824**

Triple stage filtration system. For extended solution life and precision cleaning needs. For those businesses that need to filter their cleaning solution down to a finer micron.

This system allows you to place staged micron filters.

# Accessories

## Oil Skimmer

**110 volt and 220 volt**  
**# SA172, #SA170**

Oil skimmer removes built up oil every night after the parts washer solution has settled.

Stainless steel wheel skims oil from the top of the cleaning solution removing it from your parts washer

## Scrub Pad Holder

**For Manual Units**  
**# 1032**

Scrub Pad Holder for use in manual parts washer units.

Scrub Pad Holder attaches easily to the sink top on your manual parts washer. Scrub Pad Holder holds 10 Scrub pads

## 7-Day Timer

**110 volt**  
**# EL1050**

Allows your parts washer to turn itself off after hours, and then turn on again the next day.

Reduces Evaporation due to reduced parts washer running time. Can be used with automatic parts washers and manual parts washers

## Scrub Pads

**64oz**  
**# 6055**

Refills for use with our scrub pad holder. For those extra tough jobs that need some personal attention to get it done.

A must have for every shop

## Filter System

**Portable System**  
**# OPT148**

Portable filtration for your cleaning system.

For use with ANY water based parts washer.

## Oil Towel Tray with Hardware

**For Manual Units**  
**# 6030**

Oil tray attaches to the inside of a manual parts washer base above the water line to remove excess oils from the parts cleaning detergent

# Thank You!

Here at Service Line Inc. we strive to be your premier onestop-shop for parts cleaning. Over the years we have made alliances with several different types of companies so that we are able to service most types and brands of parts washers, not just the Renegade line. We are constantly adding new products to our supply line in order to meet our customers growing needs.

Not only are we able to supply you a variety of cleaning supplies, but we also offer you a wide variety of parts cleaning solutions. Custom units ranging from explosion proof units to even larger custom built automatic units are just some of the available options. While our Renegade line of manual solutions and 2 signature Renegade automatic solutions still remain our primary equipment focus, we have the ability to give you the customer the choices you deserve. We now offer a wide variety of finance options, from buying your parts washer to renting it. Our new custom rental programs are tailored to your specific needs, and give your business the flexibility to customize your equipment plan as your business grows. No matter how you choose to put a Renegade in your facility, we guarantee the cleaning performance, and the ongoing customer support that sets our company apart from the rest.

From hand cleaner to large cabinet style parts cleaning systems, renting or owning we can meet your needs. Call us today to see how we can customize a plan for you
