RE: Renegade Parts Washer

Dear Mr. Silvius:

The City of Liberty will allow Gary Crosley Ford to discharge waste from the Renegade Parts washer into the City of Liberty Sanitary Sewer System. The City will allow this discharge waste with the following conditions:

1. The discharge shall be in compliance with the City of Liberty Sewer Use Ordinance.
2. The Renegade Parts washer is to be used only as designed and with the approved solution.
3. The City reserves the right to sample the discharge and terminate the discharge of this waste if problems with treating of the waste occur.
4. The City's decision is based on the contents of the "submittal package" provided to the City of Liberty's by Renegade, and the accuracy of the material contained therein.

Please call if you have any questions or comments.

Sincerely,

Mike Lawless
City Engineer, P.E.
