RE: Renegade Parts Washer

Frank Gentile
Attn: Pete Loberg
Fixed Operations Director
6801 Washington Ave.
P.O. Box 080977
Racine, WI 53408

Dear Mr. Loberg,

The discharge analysis from the Renegade Parts Washer indicates that this parts washer system meets Racine Wastewater discharge limits. The Racine Wastewater Utility will allow Frank Gentile to discharge waste from the Renegade Parts Washer into the sewerage system, with the following conditions:

- All subsequent discharges are to be in compliance with the Racine wastewater discharge ordinance.
- The Utility reserves the right to sample the discharge or to inspect the parts washer set-up.
- This product is to be used only as designed and with the approved solution.
- The use of the parts washer and wastewater discharge from this unit is granted only to Frank Gentile. The expected discharge rate is approximately 50 gallons per month.
- Any violation of the above stated conditions or any indication that the use of this product is causing interference with the processes at the wastewater treatment plant will result in termination of its use.

If you have any concerns or questions, please call me at 636-9523.

Sincerely,

Nora S. Erlandson
Industrial Pretreatment Coordinator/Laboratory Director
