

PARTS WASHERS FOR PRODUCTION PROCESS CLEANING

Automatic Top Load Wash Dry System with PLC Integration

Renegade I-Series TL 60 WD Dimensions: Height: 46.5 inches; Width: 82.5 inches; Depth: 49.5 inches

DESCRIPTION

The **Renegade I-Series TL 60 WD Parts Washer** with 2-stage Wash/Dry automation is designed for high production, repetitive cleaning operations for maximum cleaning efficiency. Customize your system with a wide range of options for your production process cell. Performance benefits include larger capacities, increased automation and integration of components. Renegade engineers assess your special cleaning challenges and custom design the system that will meet or exceed your clean spec or warranty requirements, including *custom fixtures designed to provide maximum cleaning repeatability.*

KEY FEATURES AND BENEFITS

- Wash Dry: Two Stage Cleaning Efficiency
- Washer PLC/HMI Touch Screen Controls:
 - 7-day Timer for Heating and Skimming
 - Filter Monitoring
 - Low Water Warnings
 - Preset Maintenance Cycles
 - Preset Wash Cycles
 - Temperature Display
- 230 V 3Ph ; 460 V 3Ph
- ACT (Average Cycle Time) 10 minutes*
- Automatic Fill
- Automatic Low Water Level Shut Down
- Ethernet Connection
- Filtered Fresh Air Intake
- Gear Driven Spray Manifold for Durability
- Heavy Duty 11 Gauge Steel or Stainless Steel Construction
- Max Solution Temperature 195 degrees
- Oil Skimmer for Wash Tank

- Power Vent for Fast Steam Removal
- Proximity Switches
- Washer Door Lid Safety Switch

WASH CYCLE

- 5 hp Heavy Duty Wash Cycle Pump
- 9 KW Heater; 12 KW Heater
- Sump Capacity - 187 Gallons

HEATED DRY CYCLE

- 2 HP Blower
- 18 KW Heater or 24 KW Heater

WASH ZONE SPECS 500 LB. LOAD CAPACITY

COMPONENT HIGHLIGHTS

Dry Cycle Blower

5 HP Heavy Duty Pump Motor

Interior Basket Assembly

I-Series TL 60 WD Rev. 10-2016 *Estimated average range. Cycle times will vary depending on production cell operations, part size, part shape, part weight, and product supply. Subject to changes and modifications without notice.

PARTS WASHERS FOR PRODUCTION PROCESS CLEANING
INDUSTRIAL APPLICATIONS

Aviation and Aircraft Parts Cleaning
Fabrication Parts Cleaning
Industrial Parts Cleaning
Machine Shop
Large Casting CNC Machining Facilities
Production Engine Shops
Production Machining Facilities
Remanufacturing Facilities
Transmission Machine Shops
Transportation Production Centers

DISCOVER THE DIFFERENCE AND LEARN WHEN CUSTOM PARTS WASHERS ARE BEST FOR YOUR PRODUCTION CELL

Manufactured by Service Line, Inc. since 1996, Renegade designs and manufactures parts washers for unique industrial process cleaning applications. With an extensive archive of successful machines, choose from our automatic top load or front load systems configured for your application.

Contact the Renegade Team if your parameters for custom design production process cleaning include one or more of the following parameters:

- Achieve Consistent Clean Specification Requirements
- Difficult Cleaning Challenges Such as Blind Holes, Tapped Holes, Delicate Features, Etc.
- Expanded Height, Length, Diameter, Or Weight - Available as Specified
- Lower Production Cycle Times
- High Pressure Requirements
- Multi-Stage Wash Rinse Dry
- Parts Washer Detergent Considerations or Requirements for Items to be Cleaned: De-Foaming, Rust Preventative, Solvent-Free, Environmental Concerns, or Health Concerns.
- Special Fixtures
- Special Proprietary Parts Cleaning and More
- Zero Contamination Requirements

Renegade will conduct a thorough analysis of your parts cleaning requirement and will create a special order system for your budget.

RENEGADE I-SERIES CUSTOM COMPONENTS AND ENHANCED FUNCTIONALITY

- Automatic Doors
- Closed Loop Rinsing Cycle
- Custom Blowers
- Custom Hot or Cold Air Quick-Dry to Prevent Flash Rusting
- Custom Parts Fixtures
- Door Interlock Safety Switch
- Filtration Systems with Finer Reduction Efficiencies to Comply with Stringent Cleanliness Specifications
- Gas Heat
- Heated Drying Cycle
- Heater Capacity Range
- Hot Water Rinse Applications
- Increased Load Capacities
- Large 12" HMI
- Oil Coalescent
- Overhead Jib Crane
- Part Tumbling Baskets
- PLC Integration of New Parts Washer To Existing Production Cell
- Power Exhaust Vent
- Pump Capacity Options
- Rinse to Drain Cycle
- Robotic Load Systems
- Rotary Part Fixture System
- Safe Touch Heat Shielding
- Specialized Gantry Cleaning Platforms for Heavy Parts That Require Special Access to The Washing Platform
- Spray Bar "Home" Positioning
- Stainless Steel Infrastructure for No-Rust Durability
- Targeted Drying
- Two-Tiered Turntables

I-SERIES TL 60 WD AUTOMATIC TOP LOAD SYSTEM CUSTOMER GOALS
VERSATILITY

- Advanced automation through PLC and HMI.

COST REDUCTION

- Automated process reducing labor cost.
- Two-stage wash, dry cycle efficiently keeps part in one system.
- Cleaned parts are more prepared for finishing.

INCREASE PRODUCTIVITY

- Quickly and efficiently clean a high volume of parts with the shortest lead time between production and final end-user installation.
- Effective process throughput improvement from reduction in human intervention.

RENEGADE PARTS WASHER DETERGENT

Renegade's history of providing parts washer solutions also includes a wide variety of **soaps and detergents** for use in parts washer systems. Renegade's experience in the industry led to the development of special non-solvent based surfactants that are both environmentally safe and health conscious for your employees.

Use Renegade low-foaming detergents to remove grease, soil, paint, corrosion, oil, and other contamination from parts' surfaces. Choose from manual or automatic detergents, degreasers, additives and hand cleaners. **Learn more and order now, call 800-774-7900 or go to Renegade at www.partwasher.net.**
